RE: Enthusiastic and Hard-Working Quality Assurance Tester/Front-End Developer

Dear Hiring Manager,

I am writing to express my interest in the Quality Assurance or Front-End Development role. With 2 years of experience in the industry, I am confident in my ability to make a valuable contribution to your team.

As a former employed Quality Assurance Tester, I solved problems in a systematic and logical manner. I am a self-motivated individual with a strong work ethic, but I am also an effective team member who thrives in a team setting. I am familiar with JIRA, MySQL, and I have some experience with front-end development.

I am a self-taught Front-End Developer with a passion for the field and a dedication to continuously improve. Through self-education and hands-on projects, I have acquired expertise in HTML, CSS, JavaScript, and jQuery, which are my primary languages. I have honed my abilities in these technologies through various resources such as online tutorials, documentation and hands-on projects.

I am enthusiastic about this opportunity as it corresponds with my professional goals and values, and I am confident that my problem-solving, teamwork, and organizational abilities will contribute to your organization's long-term success.

During an interview, I would be pleased to go into greater detail about my talents and expertise. Please contact me as soon as possible.

Sincerely,

Apichai Tochonnabod
